## CAREER OBJECTIVE

I am a motivated career changer, and I am seeking a position as a Data Analyst to apply my knowledge in data analysis and business intelligence. With several years of experience in project management, I have gained a deep understanding of business processes across various industries and developed a strong data-driven mindset. During a recently completed data scientist course, I acquired skills in data analysis, data visualization, and BI tools. My goal is to contribute to company's success with innovative solutions and analytical skills while continuously improving myself in this dynamically evolving field.

## KEY STRENGTHS

- **Data Analysis:** I gained in-depth knowledge of data analysis techniques during the data scientist bootcamp.
- **Data Visualization:** I learned methods of data visualization that allow me to present data clearly and effectively.
- **Data Cleaning:** I acquired the skills to clean faulty and missing data, improving the accuracy of analyses.
- **SQL Knowledge (MySQL, PostgreSQL):** I confidently use SQL to extract and process data from various systems.
- **Python Knowledge (Numpy, Pandas):** Proficient in Python for advanced data analysis and visualization, leveraging libraries like NumPy and Pandas to handle large datasets efficiently, perform complex data manipulations, and create insightful visualizations that support decision-making processes
- **Power BI Usage:** I created data visualizations in Power BI that facilitated decision-making processes.
- **Power Apps Development:** I developed an application that supports colleagues' work in the field.

## WORK EXPERIENCES

### Shkembe Ltd. 2020 - 2024

Hungarian-owned company operating multiple hospitality and tourism facilities nationwide.

#### Tourism division, Operations Project Manager

I was responsible for managing the operations of a lodging complex, where I focused not only on daily operational tasks but also on optimizing business performance. By regularly analyzing booking data, guest satisfaction feedback, and revenue data, I identified opportunities for improvement.

### New Edge Ltd.

2016 – 2020

New Edge Ltd. is a company specializing in interior design and exhibition project management.

#### Senior Project Manager:

At New Edge Kft., I was responsible for overseeing interior design projects, ensuring that all tasks were completed according to plan, within the expected quality standards, on time, and within the budget. My work involved careful analysis of available budgets to optimize the cost-effectiveness and timely completion of projects, thereby enhancing the company's competitiveness and client satisfaction.

### Lagermax Spedíció Ltd.

2015 - 2016

Lagermax Spedíció Ltd. is an international logistics and freight forwarding company.

#### Logistics Manager

As a logistics manager at Lagermax Spedíció Kft., I was responsible for the smooth execution of transportation and warehousing processes. My duties included optimizing the logistics chain, efficient resource allocation, and cost reduction.

### DB Schenker Ltd..

2012 - 2015

Schenker Ltd. is a leading global logistics and freight forwarding company.

#### Fairs and Exhibitions Division, Logistics Manager

At Schenker Kft., I worked as a logistics manager in the Fairs and Exhibitions division, coordinating logistics tasks for exhibitions and fairs. My responsibilities included developing transportation plans, ensuring timely delivery of goods, and providing logistical support for events.

## EDUCATION

### Budapest College of Communication and Business

2009 - 2013

Bachelor of Economics , specialization in Logistics

### Data Scientist Bootcamp

2024

Junior data analyst

## HOBBIES AND INTERESTS

Gastronomy & Travel

Snowboarding & Surfing

Self-Development & Learning

## SKILLS

### Technical Skills:

Power BI

Power Automate

Power Apps

MySQL

PostgreSQL

Python, Numpy, Pandas

Bash

**English Language Proficiency:** B2 level

**German Language Proficiency:** A2 level

**Driver's License:** Category B
